Professional Development Training Calendar

How to select the most relevant trainings: Training topics are grouped so that practitioners can clearly see which trainings may be most beneficial for them based on the core knowledge area that is addressed. We recommend that a practitioner start his/her professional development journey with *The Progressive Afterschool Practitioner*. This training helps practitioners to navigate the *Core Competencies for Afterschool Practitioners* to create a personalized training plan. Training descriptions and their relation to core knowledge areas and competencies are on the following pages.
