

# We Love Afterschool Programs for America's kids!

Afterschool programs keep kids safe, inspire them to learn, and help working families. But for every child in an afterschool program, two more are waiting to get in.

Quality afterschool and summer learning programs provide homework help, mentoring, field trips, hands-on science, art, community service, job preparation, physical activity, and more – while providing the supervision needed to keep kids safe when their parents are at work. Please, support children and working families by investing in afterschool programs.

**Help us reach 19,400 signers. Each name represents 1,000 children who would be engaged and safe after school, if a program were available.**
