

Native or Not

3rd-5th

A native animal is one that is living naturally in particular place or region. An invasive (nonnative) animal is not native and often harmful to a region. For this activity cut out the pictures below of different animal species found in Florida and paste them into the correct category on the next page.

Ball Python

Florida Box Turtle

Opossum

Florida Pine Snake

Bald Eagle

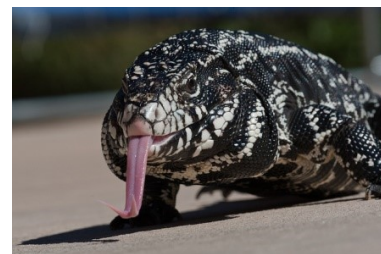

River Otter

Burmese Python

Lionfish

Argentine Black & White Tegu

American Alligator

Muscovy Duck

Cuban Tree Frog

Florida Native Animals

Invasive (nonnative) Animals
