

BE A STAR (K-3) WEEK 3

Teaching Artist DeShon Allen

OBJECTIVE: Fun activity to make them feel they are STARS!

Directions: Students will be instructed to use whatever materials that they want to make their personal star to display at home, school or whatever they would like to display the star.
If students cannot yet spell their names parent or teacher must assist but allow students to decorate the star.

Reflections:

What did you draw on your star?

What materials did you use to decorate your star?

Where will you display your star?

What makes you a star?
